

## STATEMENT OF BASIS

### PARADISE POINT STATE PARK NPDES PERMIT NO. WA0037184

The purpose of this Statement of Basis is to explain the need to modify the Permit to change the date for monitoring flow, BOD5, TSS, and Total Ammonia due to no flow monitoring station.

#### I. GENERAL INFORMATION

- A. Permittee: Paradise Point State Park  
Route 1 Box 33914 NW Paradise Road  
Ridgefield, Washington 98642
- B. Discharge Locations: East Fork Lewis River  
Latitude: 45° 52' 06" N  
Longitude: 122° 42' 10" W

#### II. REQUEST FOR MODIFICATION:

Section S10.A. Requires plans for a flow monitoring station by October 15, 2004. S10.B. requires the meters and sampling station to be completed and confirmed by letter by May 15, 2005, and the installation to include a calibration (S10.C.) also on May 15, 2005.

Section S2.B., however, requires final monitoring beginning on May 1, 2004, to include influent monitoring of flow, BOD5, TSS, and Total Ammonia. Since this monitoring is not possible without the flow monitoring station, it is at odds with section S10.A. Basically it would require this monitoring to be initiated a year before the sampling point is required to be installed.

The permit will be modified from S2.B that states:

Beginning on May 1, 2004, and lasting through the expiration date of this permit, the Permittee shall monitor according to the following schedule:

To the following:

Beginning on June 1, 2005, and lasting through the expiration date of this permit, the Permittee shall monitor according to the following schedule:

This Statement of Basis will serve as an amendment to the Fact Sheet and Permit.
